

Visualization of mean bottom temperature within St. Anns Bank marine protected area

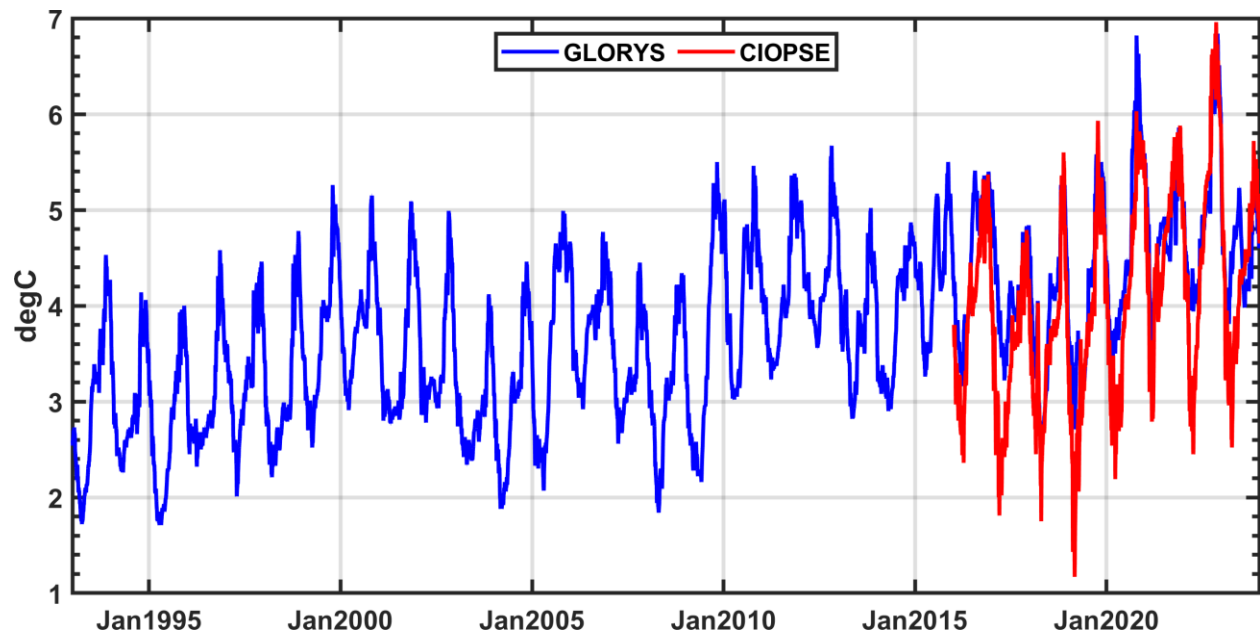

Figure: Time series of averaged ocean bottom temperature at St. Anns Bank Marine Protected Area, utilizing GLORYS data (blue curve) during 1993 – 2023 and CIOPS-E data (red curve) during 2016 – 2023. The bottom temperature data presented here are calculated as daily area averages. The blue curve corresponds to the file 'GLORYS_StAnnsBank_daily_aveBottomT.csv', while red curve corresponds to 'CIOPSE_StAnnsBank_daily_aveBottomT.csv'.
